32″ WALK-BEHIND BATTERY SWEEPER

Gladiator 664

Dustbane Gladiator 664 industrial sweeper, complete with AGM battery

Dustbane code **19680-C-AGM** · base model **19680**

A cordless sweeper that clears dust and debris from a 32½″ path in one pass. It goes from hard floor to carpet with no adjustment, and the handle folds down so it fits in a closet.

- **Covers ground fast.** Dustbane rates it at 31,075 ft²/h and says it works up to 10× faster than an upright vacuum.
- **Quiet enough to run while you're open.** At 56 dB, with low-noise vacuum fans, it can work day or night.
- **Holds onto fine dust.** The filtration captures dust down to 5 microns, and an automatic shaker clears the 11 ft² filter every 3 minutes.
- **Hard floor to carpet with no adjustments.** The self-levelling brush adjusts to the surface and to brush wear on its own.

32½″	15.5k–21.3k	11.9 gal	3 h	90 lb
82.5 cm, main + side brush	ft²/h, est. real-world	45 L hopper	12 V 42 Ah AGM	41 kg, without battery
SWEEPING PATH	PRACTICAL OUTPUT	DEBRIS HOPPER	RUN TIME	MACHINE WEIGHT

BUILT FOR THE WORK

Main brush + side brush

A 24″ main brush turns at 550 rpm, and a 220 rpm side brush pulls debris out of corners and along walls.

Front bumper

Protects walls, racking and furniture. The body is moulded polypropylene, so it won't dent or rust.

Folding handle

The handle folds over the body for transport and storage. Charging happens on board, so there's no separate charger to keep track of.

ONE MACHINE, THREE WAYS TO SWEEP

Set it for the debris in front of you, right from the handle.

LIGHT MODE

Up to 3 h

Everyday dust and grit. This is where Dustbane's 3-hour run time is measured.

HEAVY MODE

More power

For heavier soil. Dustbane notes it shortens run time but doesn't publish a figure.

FLAP RAISER

Big debris

A handle lever lifts the front flap so bulky debris can get in. Lower it again afterwards.

WHERE IT FITS

Warehouses
Aisles, docks and pick areas between shifts

Factories & shops
Fine dust and grit around production lines

Offices
Carpet and hard floor in one pass, during the day

Schools
Gyms, hallways and entrance matting

Retail
Back rooms and sales floors before opening

Book a demo on your own floor.

We'll bring the Gladiator 664 to your site and run it on your floors.

Specifications are from Dustbane Products Ltd. literature (product page, spec sheet and Gladiator 464/664 brochure). **Productivity**: 31,075 ft²/h is Dustbane's theoretical rating at maximum speed. Real coverage depends on soil load, floor layout and operator. The practical estimate is a Nika Sales calculation: 0.825 m path × 2,500–3,000 m/h × 70–80% efficiency. "Up to 10× faster than an upright vacuum" and "down to 5 microns" are Dustbane's claims. Full specifications are on page 2. Specifications are subject to change without notice.

Technical specifications & ordering guide

SPECIFICATIONS

GLADIATOR 664 (19680)	
PERFORMANCE	
Productivity (theoretical)	**31,075 ft²/h (2,887 m²/h)**
Practical coverage (est.)	**≈ 15,500–21,300 ft²/h (1,440–1,980 m²/h)**
Sweeping width	**32½″ (82.5 cm)**
Maximum speed	**3.5 km/h (2.2 mph)**
Maximum slope	**2%**
BRUSHES & FILTRATION	
Main brush	**24″ (61 cm), 550 rpm**
Side brush	**220 rpm**
Filter surface area	**11 ft² (1 m²), paper panel + pre-filter**
Filter shaker	**Automatic (every 3 min) + manual**
Hopper capacity	**11.9 US gal (45 L)**
POWER	
Battery	**12 V: 1 × 42 Ah AGM, sealed**
Charger	**On-board**
Run time	**3 h**
MACHINE	
Weight (without battery)	**90 lb (41 kg)**
Size L × W × H	**41 × 32 × 39″ (104 × 81 × 99 cm)**
Body construction	**Rotational-moulded polypropylene**
Noise level	**56 dB**
Operating temperature	**4 – 35 °C (39 – 95 °F)**

Supplied with

- 12 V 42 Ah AGM battery, installed
- On-board charger
- 24″ main brush and side brush
- Paper panel filter and pre-filter
- 4 mm hex wrench, operations and parts manuals

This is the "complete AGM" package (-C-AGM). We confirm the exact package contents on your quote.

Sweeper or vacuum?

An upright vacuum covers one narrow strip at a time and needs a cord. The 664 sweeps a 32½″ path on battery power, and Dustbane says that makes it up to 10× faster. Keep the upright for detail work.

Carpet and hard floor

The brush system self-levels, so you can go from a tiled lobby onto office carpet without stopping to adjust a height knob.

What it really covers

Plan on ≈ 15,500–21,300 ft²/h once you add turns, emptying and edges. A 50,000 ft² warehouse works out to about 2¼–3¼ hours, which is right at the limit of one charge in light mode.

DUSTBANE WARRANTY

3 yr	10 yr	1 yr	1 yr	90 days
Electrical components; fan & brush motors (or 2,000 h)	Tanks & housings	Labour at an authorized service centre	Battery & charger (pro-rated), wheels & casters	Travel, up to 3 hours

BEFORE YOU ORDER

- ☐ **Ramps.** Dustbane rates it for slopes of no more than 2%. It isn't for parkade or loading-dock ramps.
- ☐ **Cold spaces.** It's rated to operate between 4 and 35 °C and to be stored at 0 °C or warmer. Don't leave it on an unheated dock over a Canadian winter.
- ☐ **Lifting.** 90 lb is without the battery, and Dustbane doesn't publish the shipped weight. Ask us for it before you plan a lift into a van.
- ☐ **Heavy mode.** Sweeping mode 2 shortens the 3-hour run time. On a large, heavily soiled floor, plan a recharge.
- ☐ **Filter care.** If you blow out the filter, keep the compressed air at 87 psi or less. Filters and brushes are wear items and aren't covered by warranty.
- ☐ **Storage.** The footprint is 41 × 32″. Fold the handle to save height in the closet.

Questions, quotes or a demo?

Ask us about brushes, filters and skirts for the Gladiator range.

Sources: Dustbane product page, Gladiator 664 spec sheet (19680), Gladiator 464/664 brochure, operations manual (rev. 2019-11), parts manual (rev. 2019-09) and Gladiator Series Warranty Policy, all retrieved October 2026. **Printed corrections:** Dustbane gives the size as "41″ × 32″ × 39″ (103 × 81 × 23 cm)", and this sheet uses 39″ (99 cm) for the height. Sweeping width is printed as 32″ against 82.5 cm, and the main brush as 24″ against 60 cm. The figures shown here are the ones that convert, so please confirm the height before quoting storage clearances. The hopper is printed as 12 gal (45 L) in the spec table and 13 gal in the brochure's feature text. 45 L is 11.9 US gal. Warranty terms follow Dustbane's Gladiator Series policy: brushes, filters, switches, gaskets and belts aren't covered, and coverage depends on approval by Dustbane Technical Services. Specifications are subject to change. Nika Sales · Rev. 2026-10-14.
