24″ MICRO-RIDER AUTO-SCRUBBER

Hurricane Rally 24

Dustbane Hurricane Rally 24, complete with AGM batteries

Dustbane code 19367-C-AGM · 24 V, 4 × 6 V

A ride-on scrubber barely bigger than a walk-behind. The operator sits, steers and covers a 24″ path at up to 6 km/h, in aisles and rooms a full-size rider can't reach.

- **Clean in comfort.** A seat and steering wheel instead of a long walk. Operators stay fresh for the whole 4–4.5 hour run.
- **Gets where big riders can't.** 26″ wide and 52″ long, so it turns in store aisles, corridors and washrooms.
- **More floor per fill.** 80 L of solution and an 83 L recovery tank, with an anti-foam system, mean fewer trips to empty and refill.
- **Easy to keep running.** Daily maintenance points are marked in yellow, and the brushes have a wear indicator.

Hurricane Rally range (Rally 21 badge shown). The Rally 24 shares the same body.

24″	18.4k–26.3k	21 gal	4–4.5 h	377 lb
SCRUB PATH	PRACTICAL OUTPUT	SOLUTION TANK	RUN TIME	MACHINE WEIGHT
61 cm, 2 × 12″ brushes	ft²/h, NIKA estimate	80 L · 83 L recovery	24 V, 4 × 6 V AGM	171 kg, without batteries

BUILT FOR THE WORK

Seat and steering wheel

The operator rides instead of walking, so the last hour of the shift is as good as the first.

37″ squeegee

13″ wider than the scrub path, so it catches what the brushes throw on a turn and leaves the floor dry.

Compact, pedal driven

A drive pedal and a short wheelbase. It manoeuvres like a walk-behind but at up to 6 km/h.

WHICH RALLY?

Rally 21
21″ · 1 brush
Narrowest path, single 21″ brush, 2-stage vacuum. For tight rooms.

Rally 24 (this model)
24″ · 2 × 12″
Two brushes at 285 rpm and a 3-stage vacuum: the all-round pick for retail and schools.

Rally 28
27″ · 2 × 14″
Widest path in the same body, for bigger open floors.

Book a ride on your own floor.

We'll bring a Rally to your site so your operator can try it.

Specifications from Dustbane Products Ltd. (Hurricane Rally 24 product page and Hurricane Rally spec sheet, Nov 2026). Productivity: 39,654 ft²/h (3,684 m²/h) is Dustbane's theoretical rating at maximum speed. The practical estimate is a Nika Sales calculation for a rider: 0.61 m path × 4,000–5,000 m/h × 70–80% efficiency; real coverage depends on soil load, layout and operator. Subject to change without notice. Nika Sales · Rev. 2026-11-12 ·

SPECIFICATIONS

CLEANING	
Productivity (theoretical)	39,654 ft²/h (3,684 m²/h)
Practical coverage (est.)	≈ 18,400–26,300 ft²/h (1,710–2,440 m²/h)
Scrubbing width	24″ (61 cm)
Squeegee width	37″ (94 cm)
Brushes	2 × 12″ (2 × 30 cm), 285 rpm
Water lift at squeegee	48″ (123 cm)
POWER & DRIVE	
Power supply	24 V (4 × 6 V)
Brush motors	2 × 400 W
Vacuum motor	3-stage, 550 W
Traction motor	Yes, up to 6 km/h (≈ 3.7 mph)
Run time	4–4.5 h
TANKS, SIZE & NOISE	
Solution / recovery tank	21 / 22 US gal (80 / 83 L)
Size L × W × H	52 × 26 × 41″ (131 × 67 × 103 cm)
Weight	377 lb (171 kg), without batteries
Noise level	65 dB
Approvals	cUL; supports LEED / WELL programs

SUPPLIED WITH

- ✔ 4 × 6 V AGM batteries (complete package)
- ✔ Battery charger
- ✔ 2 × 12″ pad drivers or brushes
- ✔ 37″ squeegee assembly
- ✔ Anti-foam system

What it really covers

Dustbane's 39,654 ft²/h is full speed in a straight line. Plan on ≈ 18,400–26,300 ft²/h with turns, refills and edges. A 60,000 ft² floor is about 2¼–3¼ hours: inside one charge.

Rider or walk-behind?

If an operator walks a 24″ machine for more than two hours a shift, a micro-rider pays back in labour and fatigue. Below that, a walk-behind like the Labrador L24 is the cheaper buy.

Parts and service from Guelph

We stock pads, squeegee blades and wear parts, and we're an authorized Dustbane service centre.

DUSTBANE WARRANTY · AUTO-SCRUBBERS

10 yr	3 yr	1 yr	1 yr
Polyethylene tanks	Major components: electrical, brush & vacuum motors, transmissions (or 2,000 h)	Other components, and labour at an authorized service centre	Batteries & chargers, pro-rated

WHERE IT FITS

Retail & grocery
Aisles and back rooms before and after hours.

Schools
Corridors, gyms and cafeterias.

Industrial & manufacturing
Production aisles too tight for a big rider.

Property management
Lobbies, parkade entrances and common areas.

BEFORE YOU ORDER

1. **Doorways and elevators.** 26″ wide and 52″ long, plus the 37″ squeegee. Measure the narrowest door and any elevator on the route.
2. **Plan for the battery weight.** 377 lb is the machine without batteries. Four 6 V AGM batteries add a lot, so check floor loading on mezzanines.
3. **Fill and dump point.** 21 gal in, 22 gal out. A sink or floor drain on the route saves a long drive back.
4. **Pads and blades on hand.** 12″ pads and squeegee blades are wear items, not warranty. Order a starter set with the machine.

Sources: Dustbane Hurricane Rally 24 product page and Hurricane Rally spec sheet (Nov 2026), Auto-Scrubber Warranty Policy. Dustbane's page summary quotes 34,229 ft²/h and 3.5–4 h run time; those are the Rally 21 figures. The Rally 24 spec table (39,654 ft²/h, 4–4.5 h) is used here. Approval as listed on the product page; the spec sheet shows "N/A", so confirm before a tender. Battery capacity and charger type are not published; package contents reflect Dustbane's "Complete AGM" configuration, so confirm on the quote. Wear items are not covered by warranty.
