24″ WALK-BEHIND AUTO-SCRUBBER · TRACTION

Labrador L24

Dustbane Labrador L24 Traction, complete with AGM batteries

Dustbane code 19372-C-AGM · Labrador L24 Traction Complete AGM

A 24-inch scrubber quiet enough to run while the building is open. Two 12″ brushes, a traction drive and 72 L of solution let one operator cover a school or a store floor on days instead of a night shift.

- **Clean during business hours.** ECOSELECT drops it to 56/54 dB, quiet enough for a corridor, clinic or store aisle mid-shift.
- **Traction drive does the walking.** 547 lb of machine moves itself at up to 4.5 km/h; the operator steers instead of shoving.
- **Two brushes, real pressure.** Dual 12″ discs at 200 rpm with 67 lb of brush pressure on a 24″ path.
- **Dries behind itself.** A 32″ squeegee and 48.5″ of water lift leave the floor walk-on dry in one pass.

Labrador L24 Traction

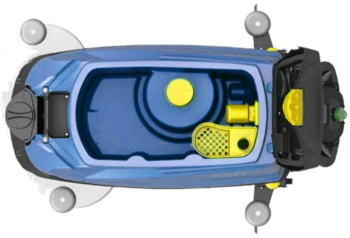

24″	11.5k–15.8k	19 gal	3.5 h	547 lb
SCRUB PATH	PRACTICAL OUTPUT	SOLUTION TANK	RUN TIME	WEIGHT
61 cm, 2 × 12″ brushes	ft²/h, NIKA estimate	72 L · 75 L recovery	up to, ECOSELECT mode	248 kg, with batteries

BUILT FOR THE WORK

One-knob control

A backlit display and a single selector. Operators learn it in a shift, not a week.

Wide-open recovery tank

The lid lifts clear for rinsing, with a basket filter that catches debris before the vacuum.

24 V AGM battery bay

Two sealed 12 V AGM batteries: no watering. Tip the tank back for easy access.

WHY ECOSELECT MATTERS

Noise
56/54 dB
Dustbane's Advanced Noise Control isolates the vacuum motor. ECOSELECT brings it down to 54 dB.

Run time
Up to 3.5 h
ECOSELECT stretches the 24 V AGM batteries to most of a shift on one charge.

Labour
Days, not nights
Quiet enough to scrub while people are in the building, so you skip the night-shift premium.

Quotes, demos and same-week service.

Guelph-based. We sell it, we stock the parts, and we fix it.

Specifications from Dustbane Products Ltd. (Labrador L24 product page and spec sheet, Nov 2026). Productivity: 35,693 ft²/h (3,316 m²/h) is Dustbane's theoretical rating at maximum speed. The practical estimate is a Nika Sales calculation: 0.61 m path × 2,500–3,000 m/h × 70–80% efficiency; real coverage depends on soil load, layout and operator. Subject to change without notice. Nika Sales · Rev. 2026-11-12 · Page 1 of 2

SPECIFICATIONS

CLEANING	
Productivity (theoretical)	35,693 ft²/h (3,316 m²/h)
Practical coverage (est.)	≈ 11,500–15,800 ft²/h (1,070–1,460 m²/h)
Scrubbing width	24″ (61 cm)
Squeegee width	32″ (81.5 cm)
Brushes	2 × 12″ (2 × 30.5 cm), 200 rpm
Brush pressure	67 lb (30 kg)
Water lift at squeegee	48.5″ (123 cm)
POWER & DRIVE	
Power supply	24 V (2 × 12 V AGM)
Brush motor	400 W
Vacuum motor	2-stage, 480 W
Traction motor	Yes, up to 4.5 km/h (≈ 2.8 mph)
Maximum slope	2%
Run time	Up to 3.5 h (ECOSELECT mode)
TANKS, SIZE & NOISE	
Solution / recovery tank	19 / 20 US gal (72 / 75 L)
Size L × W × H	48 × 27 × 38″ (122 × 68 × 97 cm)
Weight with batteries	547 lb (248 kg)
Noise level	56/54 dB (ECOSELECT mode)
Approvals	cUL · CE; supports LEED / WELL programs

SUPPLIED WITH

- ✔ 2 × 12 V AGM batteries (complete package)
- ✔ On-board charger
- ✔ 2 × 12″ pad drivers or brushes
- ✔ 32″ squeegee assembly
- ✔ Operator's manual

What it really covers

Dustbane's 35,693 ft²/h is full speed in a straight line. Plan on ≈ 11,500–15,800 ft²/h with turns, refills and edges. A 40,000 ft² floor is about 2½–3½ hours: one charge in ECOSELECT.

L21, L24 or L28?

Same Labrador platform. The L21 (21″) fits tighter rooms; the L28 (28″) covers bigger open floors. The L24 is the middle of the range. Ask us to price two side by side.

Parts and service from Guelph

We stock pads, squeegee blades and wear parts, and we're an authorized Dustbane service centre.

DUSTBANE WARRANTY · AUTO-SCRUBBERS

10 yr	3 yr	1 yr	1 yr
Polyethylene tanks	Major components: electrical, brush & vacuum motors (or 2,000 h)	Other components, and labour at an authorized service centre	Batteries & chargers, pro-rated

WHERE IT FITS

Schools & daycare
Corridors, gyms and cafeterias between classes.

Healthcare & LTC
Low noise near patient rooms; walk-on-dry floors.

Retail & grocery
Aisles mid-trade; 24″ fits between racking.

Offices & government
Lobbies and hallways during occupied hours.

BEFORE YOU ORDER

1. **Doorways and elevators.** 27″ wide, 48″ long, 38″ tall, plus the 32″ squeegee. Measure the narrowest door on the route.
2. **Ramps and docks.** Rated to a 2% slope. A loading-dock ramp or parkade incline is outside spec.
3. **Fill and dump point.** 19 gal in, 20 gal out. A sink or floor drain on the route beats walking the machine back.
4. **Pads and blades on hand.** 12″ pads and squeegee blades are wear items, not warranty. Order a starter set with the machine.

Ready to see one run on your floor?

Book an on-site demo, or ask for a written quote the same day.
