28″ WALK-BEHIND AUTO-SCRUBBER · TRACTION

28″ Traction Auto Scrubber

Johnny Vac JVC70BCTN, battery and charger included

Model JVC70BCTN · UPC 628383268253

Two brushes, a powered drive and 70 L of solution on a 28″ path. One operator scrubs and dries a warehouse aisle, school corridor or store floor in a single pass, without pushing 421 lb of machine.

- **Drives itself.** Traction drive takes the load off the operator, so the speed stays steady and the clean stays even.
- **Two brushes, wide path.** Twin brush motors (2 × 400 W) on a 28″ deck cover big floors fast.
- **Big tanks.** 19 gal of solution and 20 gal of recovery: fewer trips to the sink on a long run.
- **Quiet.** 58 dB, so it can work while the building is open.

Johnny Vac JVC70BCTN

28″	13.4k–18.4k	19 gal	3 h	421 lb
CLEANING PATH	PRACTICAL OUTPUT	SOLUTION TANK	RUN TIME	WEIGHT
71 cm, twin brushes	ft²/h, NIKA estimate	70 L · 75 L recovery	24 V · 6 h charge	191 kg, as published

BUILT FOR THE WORK

Twin-brush 28″ deck

Two 400 W brush motors under a bumpered deck. Scrubs grouted tile and sealed concrete in one pass.

40″ curved squeegee

12″ wider than the path, on castors, with a 400 W vacuum motor pulling water off the floor.

Blades in stock at NIKA

Front (JVCSQ70RIDE) and rear (JVCSQ70RIDE-R) blades, plus the complete rear assembly, in Guelph.

ONE CHARGE, ONE SHIFT

Run time
About 3 h

Johnny Vac's average run time on the included 24 V maintenance-free batteries.

Coverage per charge
≈ 40k–55k ft²

Three hours at our practical rate. Johnny Vac's rating is 33,906 ft²/h at full speed.

Recharge
6 h

Charge overnight and it's ready for the morning shift.

See it on your floor.

Book an on-site demo and we'll size the machine to your square footage before you buy.

SUPPLIED WITH

- ✔ Batteries (24 V, maintenance-free)
- ✔ Charger
- ✔ Brushes or pad holders
- ✔ 40″ squeegee assembly

Squeegee parts we stock

JVCSQ70RIDE front blade · **JVCSQ70RIDE-R** rear blade · **JVCSQ70CN** complete rear squeegee assembly · front + rear blade kit. Order a spare set with the machine.

Why traction matters

A 421 lb scrubber is a lot to push for three hours. The drive wheel does the work, so the operator stays fresh and the speed stays even.

Warranty

As published by Johnny Vac at the time of quote. Johnny Vac's other commercial scrubbers we sell carry 2 years on the machine and 6 months on batteries; we confirm the JVC70BCTN terms on your quote.

WHERE IT FITS

Warehouses

Long aisles and docks where a 28″ path halves the job.

Retail & grocery

Wide aisles before open or after close.

Schools

Corridors, gyms and cafeterias.

Light industrial

Sealed concrete in shops and plants.

PARTS WE STOCK FOR THIS MACHINE

NIKA / JV part no.	Description
`JVCSQ70RIDE`	Front squeegee blade, JVC70BCTN
`JVCSQ70RIDE-R`	Rear squeegee blade, JVC70RIDERN / JVC70BCTN / JVC65RBTN
`JVCSQ70CN`	Complete rear squeegee assembly, JVC70BCTN

BEFORE YOU ORDER

1. **Measure your doorways.** The 40″ squeegee sets the working width. Check doors, elevators and aisles on the route.
2. **Plan delivery.** 421 lb: use a ramp or liftgate, not a two-person lift.
3. **Allow 6 hours to charge.** Overnight charging suits one shift; back-to-back shifts need a plan.
4. **Use low-foam chemistry.** Foaming detergents can reach the vacuum motor. Ask us for compatible scrubber cleaners.

Specifications as published by Johnny Vac (product page, Nov 2026); Johnny Vac is the brand and Canadian distributor, and no independent factory sheet was available to cross-check. The listing describes a "24V 240 A/H" battery, while Johnny Vac's parts list shows a 120 Ah battery for this model; battery capacity is left off until confirmed. Cleaning path is published as both 70 cm and 711 mm (28″ = 71.1 cm). 70 L converts to 18.5 US gal; Johnny Vac prints 19 gal. Machine size as published (axis order not stated) and appears to include the squeegee. Nika Sales · Rev. 2026-11-12 ·
